## WORK HISTORY

### Collabera Technologies — Data Engineer

06/2022 - Current — Bangalore, India.

- Working for client Flipkart Internet Pvt Ltd.
- Enhanced data quality by performing thorough cleaning, validation, and transformation tasks.
- ETL (Extract, Transform, Load) pipelines that process around 10 TBs of data each day and uses the Google Cloud Platform (GCP) services.
- Collaborated with cross-functional teams for seamless integration of data sources into the company's data ecosystem.
- Automated routine tasks using Python scripts, increasing team productivity by 30% and reducing manual errors.

### Edventure Software Private Limited — Senior Data Analyst

07/2020 - 05/2022 — Bangalore, India.

- Improved data accuracy up to 40% by implementing stringent data validation processes and quality control measures.
- Streamlined data analysis processes to 30% more efficiency and quicker decision-making.
- Building, publishing customized interactive reports and dashboards, report scheduling using Tableau server with 100 GBs of data.
- Developed Tableau workbooks to perform year over year, quarter over quarter, YTD, QTD and MTD type of analysis.
- Generated context filters and data source filters while handling 500 GB data.

### Medha Innovation & Development Pvt. Ltd — Data Analyst

12/2018 - 06/2020 — Indore, India.

- Enhanced data visualization capabilities for better decision-making with the use of advanced BI tools.
- Developed custom algorithms to optimize and automate data analysis processes, resulting in improved efficiency.
- Conducted thorough data validation and cleanup, ensuring accuracy and reliability of datasets used for analysis.
- Getting the Data by Using Importing in Hadoop Distributed File System or AWS Cloud Services.
- Used Apache Spark to extract information from real time Data.
- Used Pandas library for statistical Analysis.
- Automated most of the daily task using Apache Oozie Scheduler.

## SKILLS

- Python
- Spark Framework
- Kafka
- SQL and Databases
- RDBMS
- NoSQL Databases
- Power-BI
- Tableau
- Hive
- AWS Cloud Computing
- Sqoop
- Hadoop Ecosystem
- HDFS
- Data Curating
- Data Governance
- Data Quality Assurance
- Project Management
- ETL Development
- Data Migration
- Real-time Analytics
- Data Pipeline Design
- Data Modeling
- Big Data Processing
- Database Management
- Data Analysis
- Data Visualization
- Scripting Languages
- GCP Cloud Computing
- Data Analytics
- Data Warehousing Expertise

## EDUCATION

### Bachelor's degree:

Computer Science and Engineering  
(2014-2018)
